

SAY  
HELLO  
TO  
THE NEW  
ICARO

ICARO PARAGLIDERS

# 15 YEARS UP IN THE AIR

But now we are going to rise even higher!

For 15 years we develop gliders, harnesses and much more at **ICARO**.  
15 great years that we want to celebrate.

But actually we are excited about something completely different:  
We have lately sat together with pilots, developers and designers and  
asked ourselves what can we improve, expand, well – re-invent?

And we have invented ourselves new.  
We think it is time to cause a stir ...

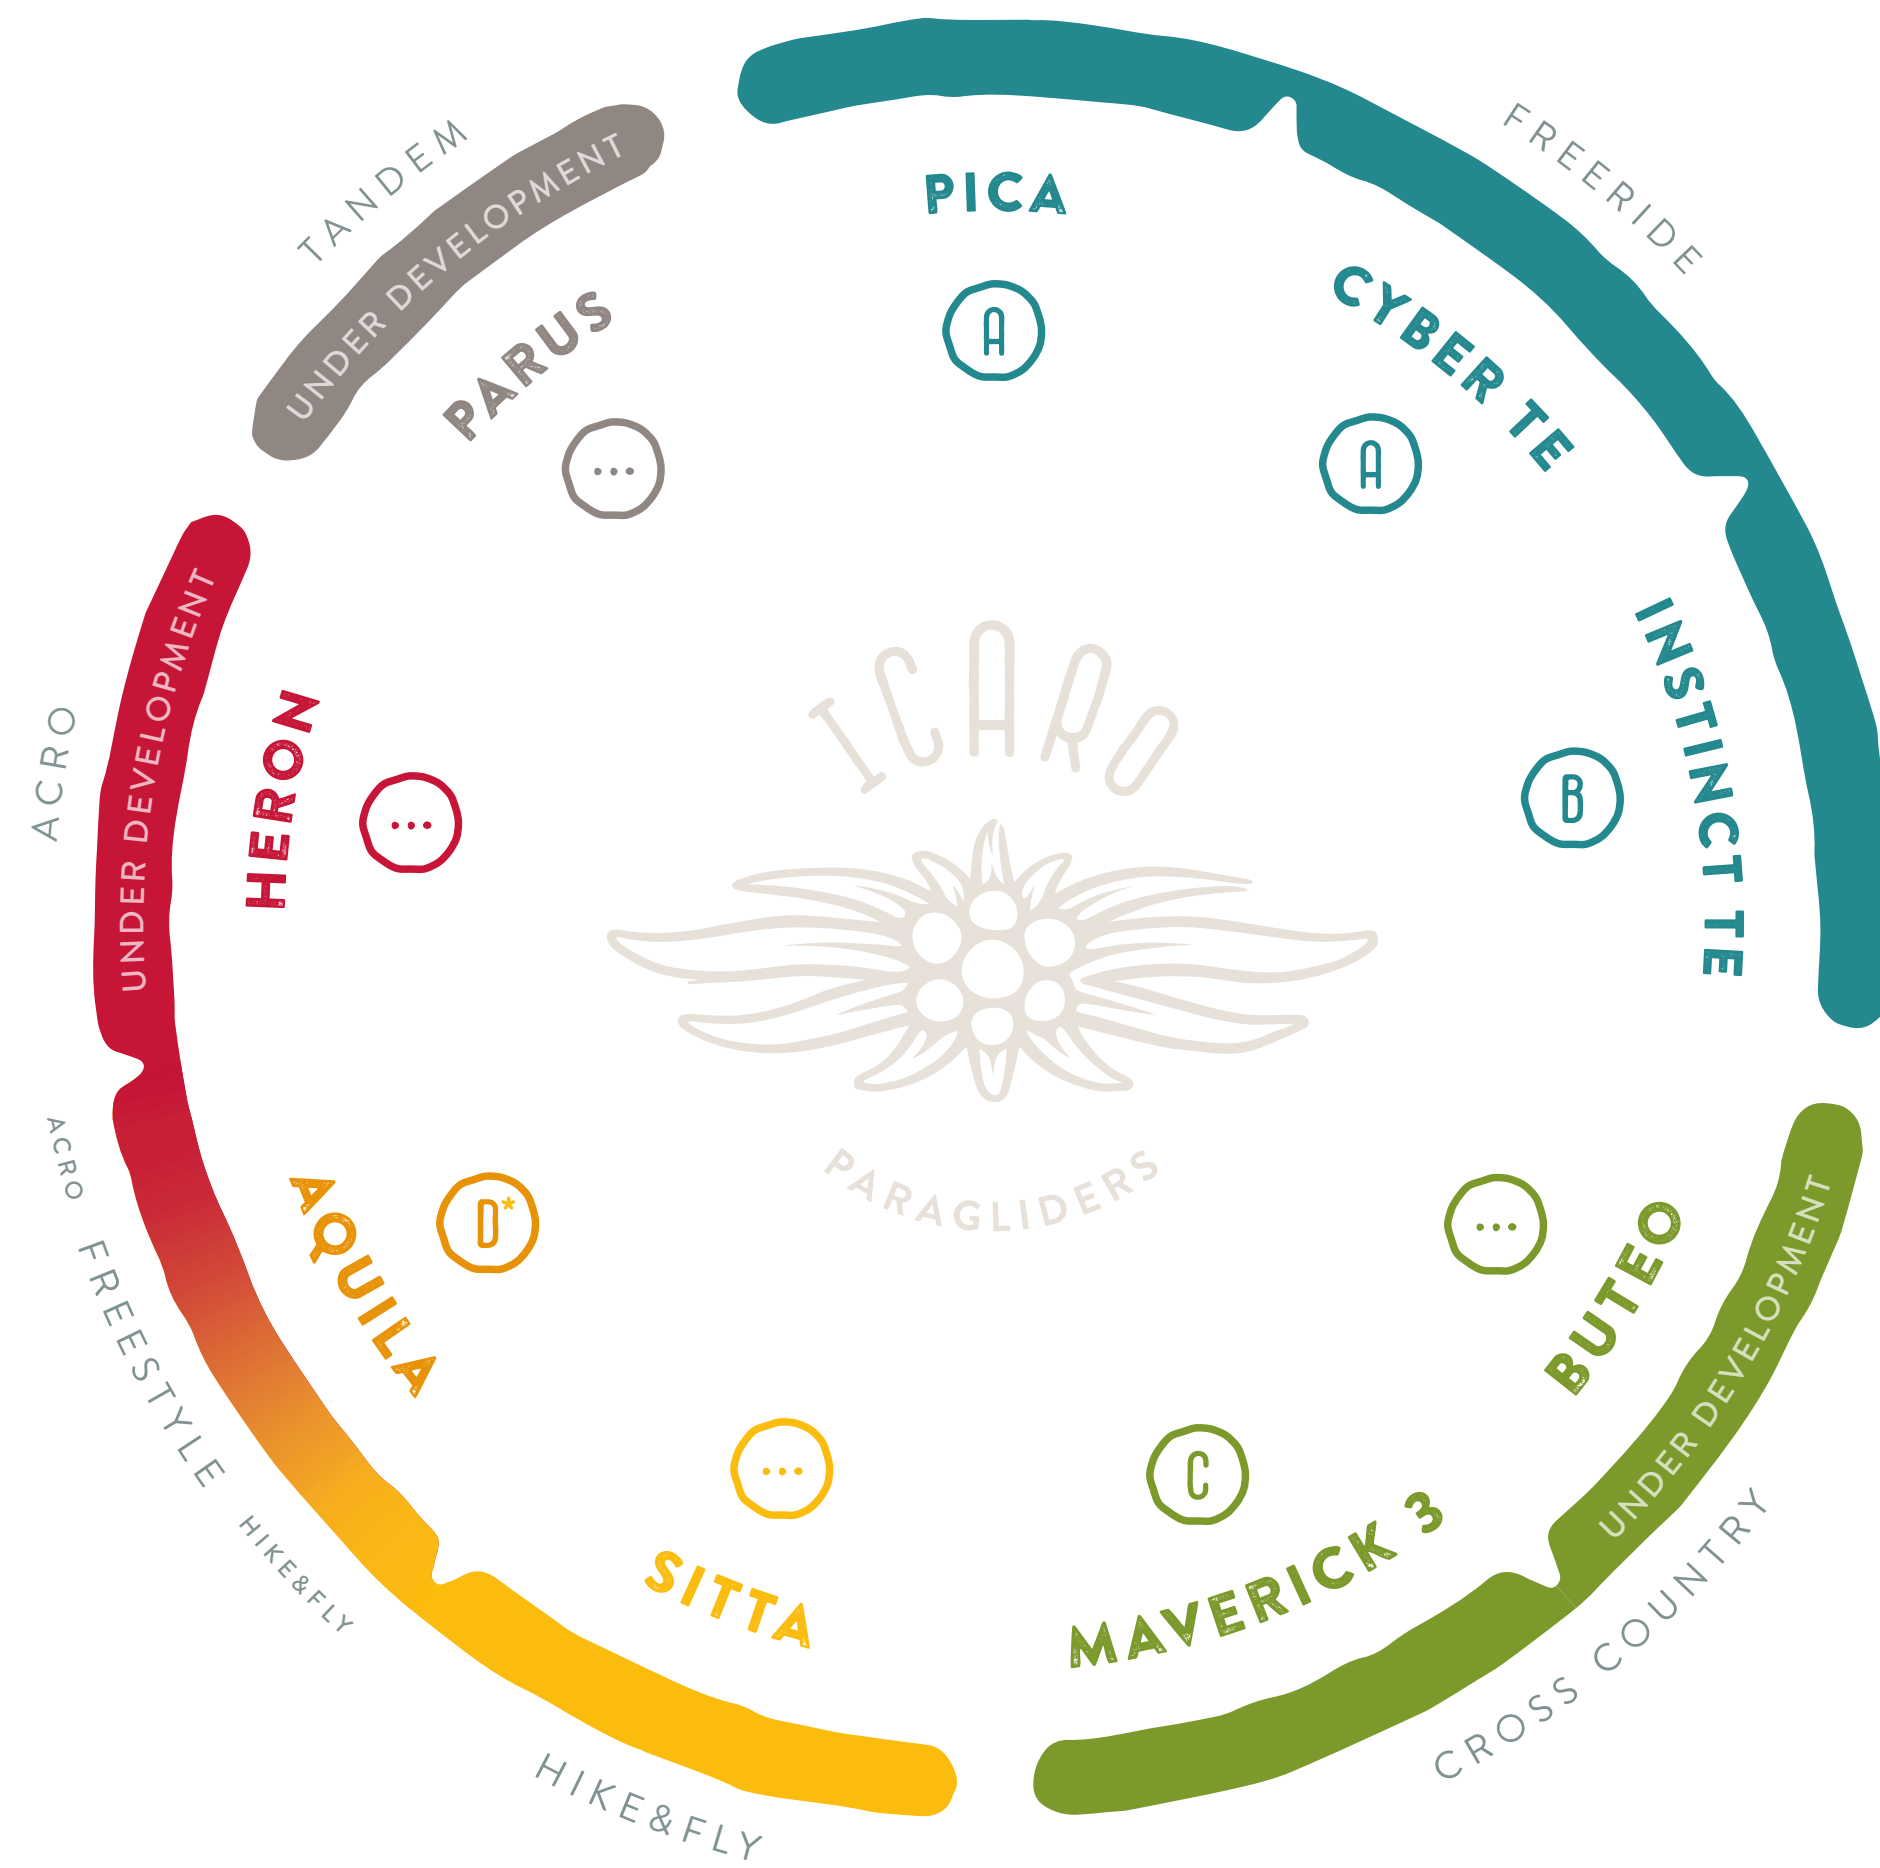

# 2015 WE WILL RENEW OURSELVES ALL AROUND

We are starting off with a modified logo, a new design on all of our products and with a new website.

# NEW PRODUCTS

Not only the ICARO image is freshened up but also the product palette will be expanded:

A plain glider for beginners and occasional pilots is coming soon. A small, witty glider called **AQUILA** will be launched for freestyle freaks and will care for more lightness in this year.

Appropriately, a new harness is also in the starting holes, which will impress with its extremely light weight.

# PRESENTATION

What is better than being able to touch  
the new products and see them live?

The starter's gun will be on the **28.FEBRUARY 2015** at the  
Thermik exhibition in Sindelfingen, Germany.

We are looking forward to meeting you at the exhibition.
